

BRAND + UI/UX DIRECTION

A calm, disciplined and premium visual system for health, scheduling and productivity.

Core idea: health and productivity should feel integrated - not like two separate apps living in one product.

CALM

DISCIPLINED

PREMIUM

FOCUSED

HUMAN

What Tapas should feel like

Tapas should sit between wellness, performance and intelligent productivity. The visual language should feel calm enough for health, but strong enough for ambition and daily execution.

Calm

Quiet surfaces, generous whitespace, low visual noise.

Disciplined

Clear hierarchy, predictable layouts, progress and streak logic.

Masculine, not macho

Dark slate, restrained contrast, confident typography.

Human

Warm microcopy, supportive feedback and visible recovery states.

POSITIONING

AVOID

Clinical / hospital

Soft “spa” wellness

Aggressive fitness

OWN

● **Personal operating system**

● **Calm performance**

● **Sustainable discipline**

Core palette

Keep Mint secondary. Let Ice Blue and Deep Slate own the brand. Amber becomes the small emotional signature for energy, streaks and personal bests.

Deep Slate

#17252F

Primary anchor / typography / dark surfaces

Ice Blue

#A9D9E8

Primary brand / calm focus / interaction

Soft Mint

#B8E4D1

Recovery / health / positive status

Ice White

#F6FAFB

Main background / breathing room

Deep Teal

#176B6B

Premium accent / links / active states

Warm Amber

#E7A34B

Inner fire / streak / energy / highlights

SUGGESTED USAGE RATIO

Modern, clear, data-friendly

Recommended brand typeface: Manrope. If unavailable in product environments, Inter is the strongest fallback. Both are clean, contemporary and excellent for dense health/productivity data.

Aa

Manrope

Primary recommendation

A slightly warmer geometric character than Inter, while still feeling sharp and disciplined.

TYPE SCALE

Display	32 / 38	Bold
H1	24 / 30	Bold
H2	18 / 24	SemiBold
Body	15 / 22	Regular
Label	12 / 16	Medium
Micro	10 / 14	Medium

Simple symbol. Strong meaning.

Avoid hearts, crosses, lotus icons, dumbbells, calendars and clocks. Tapas should own discipline and inner energy rather than visually describing a feature.

01

T + Inner Fire

A geometric T with a restrained flame/energy gesture. Best balance of product and philosophy.

02

Broken Circle

T breaking through a circular boundary: continuity, progress and self-mastery.

03

Rising Path

An abstract upward path hidden inside the T: momentum, growth and direction.

Recommended direction: lowercase “tapas” with a custom t. Use the symbol independently for app icon, wearable tile and favicon.

Less wellness fluff. More calm precision.

Use soft geometry, subtle borders and clear data hierarchy. Avoid over-rounded cards, excessive shadows and decorative gradients.

SHAPE RULES

Cards	16 px radius
Buttons	12 px radius
Pills	999 px
Borders	#DCE7EA / 1 px
Shadows	Minimal; only for elevation

A personal operating system

Keep the main navigation tight. Health, planning and focus should feel like one loop: understand your state -> decide your priorities -> execute -> recover.

- 1 Today**
Command centre: readiness, priorities, schedule
- 2 Health**
Sleep, activity, recovery, nutrition, vitals
- 3 Plan**
Calendar, tasks, habits, goals
- 4 Focus**
Deep work, focus timer, distraction control
- 5 You**
Trends, insights, streaks, personal records

Turn “Tapas” into a metric.

A proprietary Tapas Score can become the bridge between health, discipline and productivity - giving the brand something ownable beyond standard task management.

Sleep 84

Focus 76

Movement 68

Stress 81

Design principle

Do not present the score as a moral judgement. It should guide the day: “push”, “maintain”, or “recover”.

Where Tapas can feel especially premium.

Dark mode naturally adds performance and masculine energy without forcing navy or black into every screen.

Today

You have strong recovery.

Tapas design direction

Brand core	Deep Slate + Ice Blue
------------	------------------------------

Health colour	Soft Mint
---------------	------------------

Signature accent	Warm Amber / inner fire
------------------	--------------------------------

Typography	Manrope; Inter fallback
------------	--------------------------------

Logo	Lowercase wordmark + custom T symbol
------	---

UI shape	16 px cards / 12 px buttons
----------	------------------------------------

Visual mood	Calm performance, not spa wellness
-------------	---

Product metaphor	Personal operating system
------------------	----------------------------------

Ownable feature	Tapas Score
-----------------	--------------------

Health. Focus. Discipline.

One calm system for your day.

Next recommended step: wireframe the Today dashboard + app icon system.
